trial in the United States, during been distributed from Maine to Florida to establish its pre-eminent merit country at the great and RELIABLE REMEDY s of Pulmonary disease, and the best le curative of all the slight forms of inflammation, that can possibly be

F BLOOD This frightful symptom of consumption is speedily checked and use of Buchan's Hungarian Balsam, affected membrane, removes the tubercles and restores those vital organs, the healthy condition

THIS SPITTING of Blood always arises to tubercles in the lungs and if not cured will sooner or later determine person who has spit blood once will raise less a proper curative is immediately

E SIDE This distress ng symptom of is from inflammation of the Lungs or all the fibres, or from Bronchial proceeds. It is her case it is a direct or indirect disease It prevents full and wearies away the natural strength the cause of his symptom should be and nothing can possibly effect that by and happy as the Great English cured by Dr Buchan which is entirely ingered cents, and perfectly harmless in

PLAINT In cases of Consumption you more or less affected, and also the and small intestines On dissecting cents, tubercles are often found in all particularly upon the Liver, which also hard and swelled The effect of the upon the diseased of the Liver, especially organs nature is direct and powerful the Liver, unattended by Consumption is as use

OGH The harsh dry, hacking cough affects old people, and invalids in a low is happily effected by the Hungarian

stens and stimulates the whole breath removes all morbid mucus and other fies and animates the blood, improves power of the Liver Spleen, and other the digestive organs, and imparts new and elasticated system

IS Bronchitis, Difficulty of Breathing, a slimy expectoration with all other by an attack of the air tubes leading into the lungs, are directly and specifically the use of the admirable remedy invented

ry painful wearing and injurious always has a powerful tendency to lighten the Lungs and thereby to insert form of Pulmonary disease Beware, you afflicted! and employ this val-

LES ON THE LUNGS! The Balsam is the only popular remedy power to dissolve, remove, and cure the Lungs Incredible as this is seemed we have the most abundant evidence to sustain the assertion its direct and immediate effect, in there is no natural organic defect sident is the American Agent of its the worst form of this disease, that as he has frequently stated) that it by invalids who have been PRONOUNCED by the most eminent other than by persons affected with form of disease—in order that its be more apparent He boldly dewill cure Tuberculous disease and the testimonial in the worst of cases

ORATION Free Expectoration important object to be attained in all at diseases of the Chest and Lungs which is so distressing, is simply the sure to expectorate, and as long as exists in the air passage, it will constantly attempt to throw off this expectoration gives great relief Inexpectorate in the latter stages of Con the cause of death

arian Balsam is a great Expectorant— the morbid and diseased matter in the changes it from a thick glutinous sub him harmless fluid and throws it off atest possible ease and comfort to the there is no better medicine in the world, grant quality alone be considered

ODIC ASTHMA Simple or Spasmodic has no better remedy than the Balsam This painful and destructive which resists almost every thing else, all powerful influence of this great readily as any other form of Pectoral

IPTION Consumption has been described as "Shrinking of one's self" Balsam by its cleansing warming, and animating power, produces, not expansion, delightful influence, all chills fever, costiveness blueness of the nails skin an uncertain strength, emaciation disappear, like the poisonous dews of the glorious morning sun! This is no demonstrable fact, sustained by incontestable testimony from all parts of the country

RUST PROOF IRON,
FOR
ROOFING WINDOW SHUTTERS, &c

THE subscribers beg to call the attention of all those interested in roofing, to their GALVANIZED TIN PLATES, and to the many advantages which they possess over all metallic and other substances hitherto used for this purpose, possessing as they do, the strength, and lightness of iron without its liability to rust having now been tested several years, both in this country and in Europe They are also less subject to expansion and contraction from sudden changes of the atmosphere, than common Tin Plate Iron, Zinc &c or any other metal now used for roofing and consequently form a much better and tighter roof, requiring far less frequent repair, whilst the first cost is but a trifle more

The subscribers would also call the attention of all dealers and workers in metals to the many other purposes to which Iron thus protected can be applied In general terms it is applicable to all articles of iron which it is desirable to protect from the action of the atmosphere And they would especially call the attention of those interested in TELEGRAPHIC LINES to their Galvanized Wire, which is now almost entirely used in Europe and which answers every purpose as a conductor of electricity, costing only about one half as much as copper, and possessing equal durability with that metal

Having lately erected works in this city for the purpose of galvanizing Nails, Spikes Bolts Wire, &c, they will be able to furnish any article which may be desired A supply of Plates (manufactured in Europe) constantly on hand, from 16 to 32 wire gauge GEO B MOREWOOD & CO

Nos 14 and 16 Beaver st New York

The Patent Right for this article has been secured for the United States as well as Great Britain and other European countries, and all legal measures will be taken to prevent any infringement by importation or otherwise

PATENTS.
AMERICAN AND FOREIGN OFFICE.
And Agency of the U S Patent Office, Washington.
22 State Street—Boston.

THE subscriber by appointment from the Commissioner of Patents is Agent of the U S Patent Office for the purpose of receiving and forwarding to the same all such models, specimens of ingredients and manufactures as shall be intended to be patented, or deposited therein, which will be received and forwarded, free of expense and risk to their owners and with all possible despatch. The subscriber will prepare Caveats Specifications Assignments and all the necessary Papers and Drawings, will make researches into American and Foreign works for establishing the validity or utility of inventions and render advice on all legal and scientific matters respecting the same Patents secured in Europe and other countries

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there as well as all personal trouble in obtaining their patents The experience of fourteen years practice—an extensive collection of rare works, documents, decisions, &c on mechanical subjects and the Patent Laws—and patents of different countries, collected at much expense during the long time this office has been established, and to which daily additions are being made, together with accounts here kept of inventions patented at Washington, enable me to afford important assistance and information to inventors desirous of securing Patents when in other respects might be difficult of attainment

The Sugar-Coated Pills.
A NEW SARSAPARILLA PREPARATION.
To cure Diseases, Purify the Blood! To avoid them, keep it pure!!

That a PREDISPOSITION which exposes the human frame to the infection and virulence of every class of disorders proceeds directly or indirectly, from a morbid state of the system caused by

IMPURE BLOOD.

HALSEY'S SUGAR COATED MAGIC LIFE PILLS The originator of the only true and genuine Sugar coated Pills, most respectfully informs the enlightened public, that this new and elegant preparation can be obtained only from advertised agents and at the proprietor's establishment No 323 Broadway, N. York—Price 25 cents a single box, 5 boxes for one dollar

G W LADD Agent for Bangor

Among the numerous remedies which stand reputable on the list of an ancient name, are none perhaps which have acquired so great celebrity, and extensive use in so short a time as this invaluable article—They have gained their high reputation, alone by their good works Those who once try them always use them again They are grateful to the stomach,—they improve the functions of secretion nutrition and circulation They restore digestion and appetite and create a natural warmth inwardly, which gives through the whole system giving greater vitality and animation The experience of thousands attest to their good effects After using them for a short time the hitherto wretched invalid finds that all disagreeable and unhealthy humors have forsaken his system His digestive organs perform their proper functions, his blood regains its wonted purity the oppressive sense of weakness and pain departs, and his body becomes endowed with renewed strength and vigor—while the mind resumes its original vivacity and clearness Such are the results produced by Halsey's Sugar-coated Pills the mildest, yet most effectual purgative of the class in use

In BILIOUS complaints, Costiveness, Indigestion, Dyspepsia, and all other disorders of the stomach they produce the most happy results For Sores, Boils Salt-rheum, Tetter, Erysipelas, Eruptions of the Skin Scrofulous complaints and many other diseases arising from IMPURE BLOOD, they have become highly celebrated Hundreds of certificates have been received from individuals who after having taken them for a few weeks, according to the directions which accompany the box) were cured of the most afflicting cases of *scrofulous affections* They give *Good Blood for Bad* Bottles of the Boasted Sarsaparillas, contain less of the true virtues of that valuable plant and are less effectual than a single box of these extraordinary Pills In Colds, Coughs Influenza, Sore Throat Headache, Giddiness &c, they are recommended with entire confidence the relief in these cases is quick and permanent For Fever and Ague, Fevers Asthma Piles Loss of Appetite, Dropsy, Jaundice Worms, Languishing General Debility, and many of the various other diseases to which human system is liable they have proved an invaluable remedy Their action on the bowels is of the mildest character even over doses never cause griping or unpleasantness yet they are searching and efficient It is impossible by words, to give an adequate idea of the great and good effects these pills produce and their superiority over every other remedy of a similar class a trial only will explain the wide difference The unhappy invalid after having *tested* but a *single box* of them will with joy for the unexampled change wrought in his health, bear testimony to their uncommon virtues

N B The *coating of sugar* adds nothing to the great virtues of the Magic Life Pills, as their uncommon powers in promoting health on which all their merit stand, notwithstanding this, they are the original sugar coated pills The proprietor made this value an improvement to preserve their curative virtues entire as well as to render them pleasant to the taste, yet individuals of no integrity have counterfeited other pills coated them and through the base and silly pretension to a patent are distributing them about the country, deceiving the publicby imposing of them unjustly through the already acquired reputation and popularity of the genuine *Halsey's Sugar-coated Pills* In order to get the true and genuine sugar coated pills, see that the engraved signature (G W Halsey) is on the label of each box and buy only of advertised agents

THE VEGETABLE PULMONARY BALSAM,
FOR TWENTY YEARS THE MOST POPULAR REMEDY IN NEW ENGLAND,
FOR *Coughs, Colds, Consumptions, Asthma Pleurisy, Pathetic Spitting of Blood, Hooping Cough, Bronchitis, and Pulmonary Affections and Diseases of the Lungs of every kind.*

The Vegetable Pulmonary Balsam has now been very extensively used for the past twenty years, and probably with greater success than any other article known

Physicians write us that "they consider it a *safe* and *very efficacious* remedy, that will not disappoint the reasonable expectations of those who use it"

Another says, "I have, for some time past, been in the habit of prescribing the Vegetable Pulmonary Balsam for consumption, asthma, pleurisy, spitting of blood and coughs or pulmonary affections of every kind—and with confidence recommend it as superior to any other preparation used for the above complaint"

For the most conclusive testimony in its favor, see certificates to each bottle

The Vegetable Pulmonary Balsam was for many years the only article known as *Pulmonary Balsam* Its great celebrity has given rise to a great many *spurious* articles which only partially assuming the name of the genuine, or by being put up so as to resemble it as nearly as possible, are often foisted upon the public for the true article Among these are "Carter's Compound Pulmonary Balsam," "American Pulmonary Balsam," "Vegetable Pulmonary Syrup!" "Pulmonary Balsam," "Indian Pulmonary Balsam," "Hunter's Pulmonary Balsam," &c—Beware of all of them Enquire for the article by its whole name, the VEGETABLE PULMONARY BALSAM, and be sure to get the true article, prepared by REED & CUTLER (late Reed, Wing & Cutler), *Boston* and see that it has the written signature of *Wm Cutler*, upon a red label or the blue envelope Each bottle and seal is stamped "Vegetable Pulmonary Balsam" For sale by Druggists Apothecaries, and Country Merchants generally Price 50 cents.

FOSTER'S
MOUNTAIN COMPOUND!
FOR THE HAIR,
IS AN ARTICLE IN WHICH THE PUBLIC MAY PLACE THE UTMOST CONFIDENCE

THE MOUNTAIN COMPOUND is entirely different from any thing ever before introduced It combines several important medicinal qualities that to other articles of the kind does, and which make it doubly efficacious, whether as a restorative or for removing DANDRUFF, ERUPTIONS, or DISEASES from the skin of the head

Its powerful Tonic and Lustral qualities give great behavioral and new life to the hair, and its dies and gentlemen of Boston, Portland Lowell, and other places, have testified to a very great extent to its admirable adaptation for dressing, softening, curling, and keeping the HAIR MOIST A GREAT LENGTH OF TIME—longer, much longer than any thing else can and no substance is left to soil any article whatever it touts

Every individual who has bought one Bottle of this Compound speaks well of it, and buy several more, and the proprietor feels confident to recommend it from that fact

☞ For full testimony see small pamphlets.

CAUTION.

N B None genuine unless signed on the wrapper H W Foster in black ink, and in writing and also these words are lawfully inscribed, according to Act of Congress in the year eighteen hundred and forty six, by Horatio W Foster, in the Clerk's office of the District Court for Massachusetts." THURSDAY, APRIL 29, 1847

to day the list of the annual appropriations made by the City Council It gives us pleasure to state that the appropriations are much indeed for all the departments and quite satisfactorily to the friends of economy The amount of appropriations is less than hundred dollars than last year on the whole and it is said that the State tax is three thousand dollars less than last year the County tax may be a little higher but will give us a tax of about ten cents less than last year and a sufficient or in each department to cover all demands The city has made a profit at Boyd s eddy for more than hundred dollars goes into the contingent fund and this year help pay so much of the expense of the city

well known and enterprising fellow citizens N O Pinsbury and Thomas whose stay in Bangor for some fifteen years past has been honorable and to themselves, have at length a more extensive, and, we doubt not honorable field of enterprise in the New York It is with regret for our part with men whose uprightness and had firm integrity never failed were merchants in whom all could they were men whose active minds hearts sympathised with every zealous which had for its object the welfare They will be missed among community and in the benevolent circles of and in the private walks of social life transference to the commercial emporium their highest wishes in every and the budding promise of the lives, be crowned with the golden fruit and honors, which by means which minds will approve and applaud

learn that some of the farmers in County supposing this season might as the last, sold out their hay to men until they have now none for and the snow is so deep in the woods to turn them out to browse The prospect is quite gloomy and winter weather again

on turning back to last spring that unusual forwardness of the season then subject of much remark The last season frequently stated to be month earlier so that the present season with all gloom is likely to prove an average forwardness

friends and neighbors, Mr James on the West side of the stream Alexander Dunning, at his new establishment on the East side, have supplied themselves will be seen on referring to their advertisements in our columns, with every description of tools and implement for farmers They name in this department of business and reliance upon their skill and judgment farmers relating to the cultivation of the they were formerly partners but have separate establishments and each is in his own place to do all that both were able to do when united, We like their enterprise and we shall rejoice in their success

Senator Thomas H Benton said in a speech in Congress, that wash my hands of all this to dismember the Mexican Republic by her dominions in New Mexico, Chihuahua and Tamaulipas The treasury, in all that to the boundary of the Rio Grande is unparalleled outrage on Mexico It is more than two thousand miles of her territory without a word of explanation with her, the terms of a treaty with Texas to which party

The editor of an exchange paper says has been shown a specimen of gun cotton after placing it in the palm of his hand igniting it in exploded, producing no noise or smoke, *and leaving no dirt behind* He then asks a contemporary what of it, to which he replies, that there is dirt whatever on his hand, perhaps he may try it on his face once in a while

of our witty friends says that the locofoco papers claiming Gen Taylor as a Democrat, on his brilliant successes, reminds him of the story of the Irishman who hearing a great noise about Samson became particularly interested in him—and vauntingly inquired if he was not an Irish lad they were speaking of and that same

An ordinance has passed the Common Council and will probably pass the Board of Aldermen taxing all dogs kept in the city This ordinance with a law of the State passed at the last session The effect of such an ordinance will be to limit the number of dogs kept in the city or to add not a small sum to the Treasury

Osgood, Surgeon Dentist of this city has made an improvement upon instruments for extracting teeth which in most cases relieves the patient of most of the pain the extraction of teeth It is so adjusted as to raise the tooth without varying from the perpendicular line—We say from our own experience that this instrument enables the Doctor to extract a tooth with very little pain He is about to apply for a patent for his improvement

W Hopkins singing school at Market Hall on Wednesdays and Saturdays is a certain delight He has at least a thousand pupils in attendance and they sing with fine effect It requires very close attention to music to preserve order among so many little folks, but music will do it This is one of the most interesting singing schools there has ever been in the city, and the effect upon the rising generation is the most beneficial

The Custom House in this city is under the new law, making this a collection District with Daniel Emery of Hampden Collector

Andrew Freese of Bangor Deputy Inspector

Ebenezer T Foss of Bangor, Weigher and Gauger

New York, April 27, 3 P M

Official returns have been received from Iowa

Four of the persons scalded in the recent explosion on board the steamer Newark have since died

An affray has occurred in Mercer County, Pa, in consequence of an attempt to tar and feather an obnoxious individual

About twenty five persons were engaged in the affray, six of the number were badly wounded, four of them so seriously that they cannot survive

An official call has been made upon Missouri for a mounted regiment

No mail beyond Raleigh, N C has been received

Fatal Rail Road Accident.

We learn from the Lowell Courier that on Saturday evening about 7 o'clock as the cars from Concord were approaching the city, near the jail the engineer discovered a man upon the track He rang the bell and gave warning, and also reversed the engine, the man saw the cars coming, but was apparently so much frightened that he did not know where to go, though there was plenty of room on either side of the track The train struck him and passed over his shoulders mangling him in a shocking manner His name was Edward Carogan, and he resided on Lowell street He was about sixty years of age, and has left a wife and five children

Fire.

We learn, though our attentive correspondent at Castine, that the dwelling house of John Hawes, Esq of Brooksville, was destroyed by fire on the evening of the 26th Furniture partly saved The fire took from ashes deposited in a wooden vessel Insured at the Penobscot Mutual Office for $350

It is known that Santa Anna expected to take Gen. Taylor by surprise, in which he was reviewed, he says, by a deserter The facts relative, that between Agua Nueva and Incarnacion, Capt Ben McCulloch, the gallant Texan Ranger, was upon an eminence *inside of his pickets*, coolly looking into his camp with a spy glass Capt McCulloch performed the feat of penetrating Santa Anna s camp, inside of his pickets, and returned to Agua Nueva safely and reported his observations

We learn that the ice has not yet left the Penobscot or any of its branches above Oldtown excepting where there is quick water The Sunkhaze ice generally comes down in some what of a formidable mass, and we would suggest whether some of the shipping in our harbor, now pretty extensive and rafts of lumber may not be too much exposed to the approach of this mass of ice

The body of a man was picked up on the river bank at Orrington yesterday He had lain long in the water had on a blue shirt, and pantaloons—the top of his head was bald and he was supposed to be about fifty years of age Probably it was the body of the man drowned at the City Mills in February last

Latest accounts from Rio Janeiro state that our minister, Mr. Wise, had been refused by the emperor an audience which he had requested, in order to present the congratulatory letter of President Polk upon the birth of a Princess

Mr White, at Mount Hope Green House, will be ready to receive visitors to morrow, and to supply them with beautiful plants and flowers Wild flowers will be rather scarce we opine

The Marblehead people have become so crippled in their means and in their courage by the many disasters in their fishing business, that but very few vessels will be fitted out there this season for the cod fisheries

There is excellent sleighing in all the by roads about the country after getting a few miles from the city

There is now snow three or four feet deep in the interior woods of Maine, and it makes the air very chilly

We learn that Rev Mr Hedge of this city, will take his departure in June, for a tour to Europe

Thanks to Capt Mower of Jerome & Co s express for papers received yesterday, in advance of the mail

The Mechanics' Association meet this evening

Gen Kearney's Overland Route to California.

Gen Kearney must have had a fruitful overland journey from Santa Fe to California, and when he got there, unexpectedly, he met with swarming enemies, instead of friends A letter from an officer within, published in the National Intelligencer, says "We arrived at Warner s rancho the first settlement on the 2d December, and here our little command presented a most pitiable condition The men, most of whom had to walk the last five hundred miles, were nearly broken down with fatigue, and exhausted from an insufficiency of food Our animals had just crossed the Cordillera "Humado, a desert of ninety miles, without water or grass, and the few which survived were scarcely able to support their packs

At the Indian village of San Pasonal in the action there Gen Kearney exposed himself very much He was wounded severely with a lance, and would no doubt, have been killed but for the timely aid of Lieut Emory, of the topographical party, who gallantly rode up to the rescue, and had the satisfaction of shooting with his pistol the man who was about to make an other deadly thrust at him

Elihu Burritt closes his journal of his visit among the poor, famished, dying creatures in Ireland by an account of the destitution he witnessed at Bandon The abodes of distress he visited were within a stone s throw of the principal street in the town He says—

"Some one was lying prostrate with fever in almost every hovel we entered What couches for the sick! There they lay upon the filthy straw, some partly covered with rags borrowed from those who could still stand upon the feet In some of these cabins we found several little, ragged children grouped around a handful of burning straw There they sat, still as death, of which they were living types They could rather cry nor smile Their eyes were very large, and fixed steadily upon vacancy, as if they were listening instead of seeing, with them Nothing like common disease was manifest in their appearance they looked as cold and bloodless as marble In one of these wretched mud hutrows, we found six of these little things, with their naked limbs half imbedded in the black mire On asking the oldest where the parents were we heard a faint moaning behind some boards put up for a kind of partition and there, upon the fetid straw, lay the father and mother, in the last stages of the consuming famine fever Leaving this dark habitation of disease and destitution, we entered one of death "He is gone away said the woman, she has gone and left us, the poor children, will out a piece of bread And there upon a third layer of rotten straw, by the body of the father slightly covered with rags In another of these subterranean hovrows, we found a young woman entirely blind sitting upon the ground in the stiff, statue like posture which the sightless assume She arose as we entered, and dropping a curtesey, resumed her former position She said that she was a poor blind girl, that had never seen the light She asked for nothing, but her large, white capped eye balls dilated with the earnestness with which she fixed them upon us, in the sentiment but not in the sense of sight

A woman, who was upon the ground by her side began to tell the poor girl s story, with some strong expressions of sympathy for her misfortune when the latter interrupted her by saying, "Are, if it be the will of the Almighty why will we be alter saying that? why should I murmur? It is the hand of the Lord that is upon me, and it is enough! I feel it is love love of life heavily laden with the sight of human misery Poor patient sufferer! if suffering could purchase salvation, you have already earned the best provided mansions in Heaven

* * * * *

I had an almost sleepless night The awful visions of yesterday haunted me through it long wake ful hours, and reproduced in my dreams the harrowing spectacles I had witnessed I arose with all the symptoms of the fever upon me My clothes seemed saturated with the nauseating effluvia of the cabins The prospect of being brought down by a contagion in this horrid place was ominous I went out and found Dr H——, who kindly sympathised with my condition, and gave me some medicine, and advised me to keep quiet in my room and not to expose myself further to the fever It was a long, gloomy day of foreboding, cheered a little by the thought that I had not put myself in peril merely to gratify an idle curiosity Toward evening, however I began to feel a little better, and retiring early, got a pretty good night s rest

Arose much better but still rather weak—Concluded to take the coach for Cork, and return immediately to England, as I had seen, perhaps a fair average of the misery of the distressed districts Besides I felt myself predisposed to the disease by my confinement I was obliged to ride on the outside of the coach, but was grateful to be able to ride at all At half past 10 A M I left Skibbereen, with a lively sentiment of gratitude that I had escaped being prostrated in that pest house of famine On reaching Bandon, we stopped a few minutes, and purchased some crackers and slices of cold corned beef, and took my place again on the coach box, and began to break the fast which I had kept nearly forty-eight hours, But the poor miserable women and children flocked around and looked out at my lunch with such imploring, hungry eyes, that I dropped it among them, piece by piece, which they caught up like famished beasts At 7 in the evening I reached good friend Martin s, and soon found myself at home in the happiest sense of enjoyment

General Taylor's Family.

A correspondent of the Baltimore Patriot says that the father of Gen Taylor, was Col Richard Taylor, an officer, who served with credit to himself through the revolutionary war After the war, Col Taylor removed to Kentucky where he distinguished himself in the Indian wars, and subsequently held many civil offices of trust and honor He was one of the framers of the Constitution of Kentucky, was a member of the electoral colleges which voted for Jefferson, Madison and Clay Col Taylor married Sarah Strother by whom he had five sons—Hancock Zachary, George, William and Joseph, and three daughters—Elizabeth Sarah and Emily Hancock, after serving in the war against the Indians in Ohio and Indiana, died a farmer, near Louisville, Ky Zachary is Old Rough and Ready George died, a farmer, on the old family place near Louisville William died, a Surgeon in the U S Army, Joseph, the only brother of the General now living, is a Lieutenant Colonel in the army who distinguished himself at the battle of Cheo Chobee, and has now the control of the Commissary Department in Mexico

Of the Daughters—Elizabeth and Emily died leaving families. Sarah, the only sister of Gen Taylor now living, resides (as do most of his immediate family) near Louisville Gen James Taylor of Newport, Ky is not a brother of Gen Taylor but a cousin of the General s father—Gen Taylor married a daughter of Maj Smith of the army, a citizen of Maryland By her he had four children—three daughters and one son His eldest daughter, Ann, married Dr Robert C Wood, a Surgeon in the army now in Mexico The second, Sarah Knox, married Col Jefferson Davis, who has so distinguished himself at Monterey and Buena Vista Mrs Davis died several years since The third daughter is still unmarried The son graduated at Yale about two years ago Gen Taylor is one of the oldest Virginia families and is related to and connected with many of the distinguished families of that State the Madisons Lees, Taylors Barbours Tendletons, Conways Talliaferrs, numbering amongst their ornaments—Jas Madison Richard Henry Lee John Taylor of Caroline Judge Pendleton, James and Philip Barbour, General Hunt, of Texas, General Gaines, &c

There is a great freshet in the Merrimack river

The National Intelligencer, speaking of Gen Scott s success at Vera Cruz, says, the public press rings with praises of this signal victory and of the skill and courage by which it has been achieved Party enmity itself forgotten in a manifestation of those high attributes of judgement perseverance and valor in the veteran commander whose youthful sword gave victory to the arms of his country thirty three years ago, and whose life of service is now crowned with an achievement of such surpassing splendor

Swiss Mercenaries.

The Boston Times, a paper basking in the sunshine of Mr Polk s patronage, has an editorial column against the Wilmot proviso, which is represented as a Whig abolition movement to injure the Democratic party This also appears to be the idea of the Bangor Democrat These men appear to care little who is robbed or murdered, if they get their share of the spoils—[Ken Journal

Lieut Gutmen says that when the Mexican balls were shot throw h the coat of old "Rough and Ready," he very quietly remarked that he *thought the Government ought to give him a new coat*

A Curiosity!

Mr Erastus Chase, of this town, while cutting up a large pine tree which had blown down stuck his axe upon the blade of a knife imbedded in the tree, and broke it On taking it out it was found to be, to appearance, an old Indian scalping knife, which had been stuck horizontally into the tree when a sapling, and the wood had grown entirely over it The blade is about six inches long, with a buckhorn handle

On the blade and handle are one hundred and forty distinct rings—showing the number of years of the tree s growth, since the knife was left there—140 years ago, and 27 years before a white man settled in this valley The first settlement of the town was in 1734; but the settlers were driven off, and no permanent settlement was made until 53 The Ashuelot Valley was a favorite resort and home of the Indians, and it was with great difficulty and hard fighting that they were at last driven from it—Many interesting relics of the aborigines have been turned up from the soil, before this discovery — Keene, N H Sentinel

Fun taken in Earnest.

The people of Camden N J, lately elected a Pound Keeper, who has unexpectedly taken the joke in earnest and issued the following card:—

TAKE NOTICE—The inhabitants of the City of Camden, who keep hogs, pigs, goats, geese and ganders running at large in the streets lanes & alleys, in two weeks from this date, will be dealt with according to the law of the city ordinance Although I was elected for fun I am now in earnest, and will deal rigidly with all, without respect to persons It is a very respectable office, and I shall be under the necessity of fulfilling it to the best of my knowledge Your most respected friend,

WILLIAM HUGG, Pound Keeper,
Goose, Gander, Hog and Goat Catcher

It is fabled by some of the Indian tribes that there is always one hour in the day when the evil genius of each man obtains the control over his heart and judgment, and that to assail him in such a period is to ruin him It is the misfortune of some men never to have any hour secure from this influence— With them it is the *good* genius which possesses but a single hour, and so unaccustomed is he to the possession that he does not know what to do with it Such persons need no enemies for their overthrow, life being a continued struggle of self against self—the right hand against the left,—and great day being its own suicide

Speaking of voluminous writers *Punch* says "Some of the writers of the present day seem to think that the heights of Parnassus are to be scaled by using their works as scaling ladders They evidently imagine that an author has not the smallest chance of reaching posterity on less than hundreds on hundreds of volumes

Cut not to be easily pleased This lesson thoroughly learned, will save much discontented feeling and sad heartburnings

The Idle Boys.

Hardly a hundred years have passed
Since I was as gay as you,
When earth was ever green to me
And skies were ever blue,
And I loved the summer brook,
And the forest s autumn hue

But, time, that brings some change to all,
Had wrought much change with me,
And in many things I am much unlike
The boy I used to be,
When, years ago I loved to play
Beneath the spreading tree

Care has not overshadowed me,
Nor sorrow been my lot,
And I have spent some pleasant hours
Too bright to be forgot
And forged strong chains that bind me to
This dim and earthly spot

My best and earliest friend is dead,
Untouched by stain of sin,
But they still live, whose memories
High up alone within—
Hope lives, and holds the laurel out,
That I would die to win

For a wide future is before—
My heart beats high for fame,
And I have learned to breathe with love
The music of her name,
Well on the table of my heart
Its syllables of flame

Oh! little it ought have ye of all
That comes in after years,
To stir the spirit with a spell
Of changing hopes and fears—
To gain all the fancy work
That dreaming boyhood rears!

Play, while the glad hours sparkle by
Like the bubbles of a stream,
Play on —the world may be to you
All that it now may seem,
Love may not be a phantasy,
Nor fame an idle dream

ANOTHER WONDERFUL CUR
Philadelphia, April 9, 1846
Last August I caught a violent cold in consequence of getting wet in a shower of rain A circumstance so common gave me no immediate concern supposing I should soon get rid of it On the contrary however, I daily grew worse, a violent cough set in then pain in my breast and between my shoulders I now suffered great oppression from the great secretion of purulent matter in my lungs I became greatly alarmed, and my friends consulted my situation extremely critical the more so as I of appetite hectic fever and night sweats prevailed week after week as a child. At night the sweat literally poured of me This was in a condition when I commenced using 'Thompson's Compound Syrup of Tar and Wood Naptha' I procured one bottle and experienced so much benefit that I resolved to continue it I took in all nine bottles and am now perfectly restored It is now six months since I ceased using the medicine and the cure remains perfect I firmly believe this medicine is far superior to every remedy for Consumption of the Lungs J J CHAMBERLAIN,

THE

GRAEFENBERG PILLS.

THERE ARE THE MOST CONCLUSIVE REASONS why that class of Medicines denominated PATENT, should be made the means of incalculable, and lasting blessings to the human family. Suppose, for example, that a high order of talent, long and laborious observation, and great medical learning and experience are brought to bear upon the invention and manufacture of a PILL. Who may not thus long devotion to this division of medical science be crowned with the success that attends the exertion of similar talents and toil in other things? There is no reason, and it is but the simple dictate of the simplest common sense to say, but a Pill thus produced will be as perfect an article as can be made by man. *Twenty five years devotion* to any one subject will give a man of ability a mastery over it. This labor has been bestowed upon the

Graefenberg Vegetable Pills

and they are presented to the public with claims unparalleled in the whole history of medicals. It will be seen in tracing the history of all great inventions, that they were not made or discovered until the arrival of what may be termed THE FULNESS OF TIME. The mariner's compass, for instance, was not given to world until the "fulness of time" came. The Pyramids of Egypt have stood for ages, but he never knew what a wonderful and unerring guide wasting in the ocean until the Divinely appointed time drew near, when distant continents and islands were to be revealed. Behold it now is offered to the public the long sought for pill, enabling him to traverse far away upon unknown Oceans, instead of timidly sailing within sight of familiar landmarks.

So with the discovery of the New World, upon whose discovery was to arise this Giant Nation to an power and glory transcending far beyond the conception of the wild fancy. "The Old World had reached its highest point in the fulness of time" drew near for the revolution of the New, and behold the immortal Columbus was the fortunate of his discovered and to key and found! So with the invention of printing of steam, of the magnetic telegraph. Each of these had its own "fullness of time" marked, as great and Provident!

IT IS MARKED SURELY THE SAME GREAT PHILOSOPHICAL PRINCIPLE IS EQUALLY MANIFEST. Most humble of all the illustrations and proofs of this which may be found in the history of the world. We can trace them from the Mississippi discoveries down to the present hour, all of the same language the lesson and giving of the same truth *I now think yet better to heal human maladies* is at hand

That this principle is a true one of Medicine as of Physical science, is clearly shown in the

GRAEFENBERG GAZETTE,

which is furnished gratuitously to all who wish it—

Graefenberg Pills,

are regarded by all who have tested them to be an invaluable advance upon all other medicines. It is unfailing in their effects, and they are so mild that even children may be dosed with them.

THE GREAT REMEDIAL TRIUMPH

The inventor of these Pills asserts his territory upon no one nor dogma of faith, any medical teachers. Planting himself upon the rock of the

ALMIGHTY CREATOR,

"THE BLOOD IS THE LIFE"

he requires that his pills purify and keep pure the life current, that so flowing through every vein and artery, health may come home to every man, woman and child.

Some pills promise much, and have a certain value, but the Graefenberg Pills are the most popular Pill of the age.

GRATIS!!

In the second place, try the PILLS. It will cost but the merest trifle, and will introduce you to a medicine which you will deem a blessing to the end of your days. Two small things press upon the minds of the silver tongue, which they would rejoice to say to the sick, but the limits of the advertisement forbid. But let any one Pill tried with the following diseases make trial of the Graefenberg Pills and they will be PERMANENTLY CURED.

Asthma
Bilious Complaints,

In all Liver complaints, these Pills achieve the most wonderful triumphs. THEY DEFY COMPETITION. And as the susceptibility of the American constitution to all these diseases, they are aptly styled by a

The Pill of the New World.

Their wonderful efficacy in these complaints arises from their power to OPEN THE PORES CLEANSE AND STRENGTHEN THE STOMACH AND BOWELS MAKE THE LIVER PERFORM HEALTHFULLY AND CLEAR AND TO GIVE TONE AND STRENGTH TO THE SYSTEM.

It is impossible within the limits of an advertisement to give the reason for the marvellous curative properties of these Pills. But reason do exist, which have abundantly satisfied the minds of thousands in this country, and among them the second physical Physician in Justice, Clergymen, and private citizens, as good friends.

For Human Diseases of the wonderful efficacy of the Pills is to be found in the whole testimony in these days is to cheek worth the paper on which it is printed. A few extracts from the correspondence of the Company, will, however be given

FROM A PRESIDENT OF A COLLEGE

"Your enterprise is the enterprise of the day. Its success will astonish its originators. It is destined to effect a complete revolution in the medical world."

FROM A JUSTICE OF THE PEACE IN WESTERN VIRGINIA

"I have sold a number of your Pills to the extreme satisfaction. They have given entire satisfaction, and they are destined to become the most popular Pill of the age."

FROM TOLEDO, OHIO

"Having heard so much, and witnessed two or three cases treated in the trade directed by your Journal, I have thought it important you should have an agent at this place. In my opinion, more good can be done in this bilious clime by your medicines, than by the old order."

[illegible] at the instance of a friend who is making thorough trial of your remedies, and with complete success."

FROM A DISTINGUISHED GENTLEMAN OF BOSTON

"I cannot refrain from thanking you with a few lines expressing my great pleasure in being able to say, that have experienced the greatest relief from the effects of your Pills. For many years I have suffered much from nervousness, which has disorganized my whole system, and I was not known to enjoy good health for many a year, and being an old man, I despaired of ever enjoying life, but a friend recommended me to your Pills which I did, although without any confidence in the result; I am happy to inform you, has far exceeded my expectations, the cause of my suffering is nearly removed, and I feel my health and strength daily renewed, and I am satisfied in the merits of your Pills, when they are acknowledged by the whole community, and will become the most popular medicine of the day."

FROM JUDGE ——, OF GEORGIA.

SIR

Since writing to you last upon the subject of my ill health, I have been taking your medicine, and am pleased to say, that the have been of great service to me and if they continue to give me the relief I have already felt I shall bless the day you sent them. I need no further argument to the sufferings I have before told you of but intend to persevere, and hope to be able, the next time I write, to give you the happy intelligence of a perfect cure. I have heard of many instances in my neighborhood who say they have performed some extraordinary cures."

FROM AN EDITORIAL BRETHREN.

Gentlemen—I consider it to be the duty of every Christian to make known to the world any advantages that they may have derived by use of, or from any discovery of virtue, and with this sentiment strongly impressed on my mind, I feel great gratification in having it in my power to speak in the highest terms of the wonderful discovery you have made in the production of your Pills. I was induced to try them, from the plain manner in which you have reasoned on the subject and I must do myself the pleasure, and you the justice to say, that I had no conception so speedily an effect could be received. My complaint has been that of the Liver from which I despaired of getting better, but since taking your Pills, I find my general health, spirits and appetite so much improved that I hope to find my difficulties to endure, with not bodily suffering, the duties of an arduous Profession. In future I will send to your agent for more Pills when exhausted. With great consideration and gratitude, I am &c

MY EAU LUSTRAL HAIR RESTORATIVE.

This universally approved and admired article, free from ardent spirits, pungent essential oil and other destructive materials, cleans the hair expeditiously, renders it beautifully bright, and imparts to it the delicate fragrance of the flower. Hair washed with this Extract soon becomes pleasingly soft, and luxuriant in its growth, and it will infallibly bring in New Hair on Bald Heads by its use, and hair that has been made harsh and dry by long sickness, or falling out, by the use of spirituous or other improper preparations, will soon be restored to its natural color and brilliancy, by a few applications of the Eau Lustral.

It is a preservative against Baldness, and an infallible cure for all the affections of the Skin on the Head, as Dandruff and for preventing the falling off of the Hair, and turning grey.

It is the simple product and immediate extract of some plant so salutary for the hair, endowed with properties so highly cleansing that it conquers the impurity and capillary tubes of the corrosive action of these spontaneous and of the dry and dead particles that it dry attest. Thus prepared it purifies the hair, gives to it a beautiful gloss and softness, and an agreeable and lasting perfume.

EVIDENCE.

Nature has an inexhaustible mine, in which experience and study will always find room to excavate, it is that a place alone which produces all that man calls invention and which he would do better, perhaps, to name discovery.

A WONDER!

No more White, Red or Grey Hair!

A REMEDY which enhances considerably the beauty and restores the appearance of the countenance from that which is much disliked. It is pleasing to have a fine one rise to remove these defects. To effect this change of hair so much wished for, is the grand never failing property of JULES HAUEL'S VEGETABLE LIQUID HAIR DYE, which the proprietor offers with justice state to be beyond invention, the best ever yet known in this or any other country. Its properties are very powerful, though very innocuous. The chemical result is a wonderful, as it enables persons to dye instantaneously their hair without the least inconvenience. For changing red or gray Hair to Black, Brown, Dark Brown, Black or Chestnut color. The slightest evil consequences may not be felt or from its use—it is altogether harmless. This composition is the only one since time that has withstood the science of Chemistry, to devise an undetectable mixture, the various solutions of colors, without danger or inconvenience, and has justified the liberal patronage and unlimited confidence of the public. If taken it is cured, ask for box marked No 1, brown box marked 2.

Beware of counterfeits. Ask for "Jules Hauel's Vegetable Liquid Hair Dye," if you want the genuine article.

To the Beautifiers of the Complexion.

SURPRISING EFFICACY—My *EAU DIVINE DE PLANTS AND ALMONDS ESSOR*, compound of an Elixir Balm and Essence of surprising efficacy for rendering the Skin Soft and Fair, is solely infuring a DELICATE ROSEATE HUE to the complexion.

As a cosmetic and conservator of that most distinguish charm of female loveliness, a transparent fair skin, Juliet the Nymph Bloom, or Eau Divine De Venus, may be said to exert an almost magical power. It is a preservative against Baldness, and an infallible cure for all the affections of the Skin on the Head, as Dandruff and for preventing the falling off of the Hair, and turning grey.

TO THE LADIES IN PARTICULAR.

MY DEPILATORY POWDER has been found high and decided and of great use to ladies who have unwelcome and disagreeable hair, particularly when its growth is of a coarse nature, on the upper lip and side of the face giving a masculine appearance to the whole features. When used with proper care, and according to the directions, it will be found to be a great addition to the toilet, is the use of any sharp implement is entirely avoided, and no hair is removed in five or ten minutes after its application.

This composition is infallible, and warranted to remove superfluous hair. After numerous trials I have received certificates of success which cannot be contradicted.

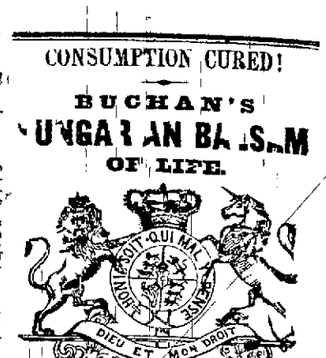
CONSUMPTION CURED!

BUCHAN'S

HUNGARIAN BALSAM

OF LIFE.



THE

GREAT ENGLISH REMEDY

For Colds, Coughs, Asthma, and other Diseases of the CHEST and LUNGS.

BUCHAN'S HUNGARIAN BALSAM, the Great English Remedy for Pulmonary and Pulmonary diseases, still stands unrivalled and unsurpassed as the most elegant, agreeable, and effectual curative of these formidable complaints, now known to the civilized world.

Three years of trial in the United States, during which time it has been distributed from Maine to Florida, has only served to establish its pre eminent merit in all parts of the country as the great and

ONLY RELIABLE REMEDY

in the worst cases of Pulmonary disease, and the best and most agreeable curative of all the slight forms of colds, coughs and inflammation, that can possibly be used.

SPITTING OF BLOOD—This frightful symptom of approaching Consumption is speedily check d and prevented by the use of Buchan's Hungarian Balsam, which heals the affected membrane, removes the irritation and restores those vital organs, the lungs to a sound and healthy condition.

REMEMBER THIS—Pitting of Blood always arises from ulceration, tendency to Tuberculous disease and if not checked, at the outset, will sounder or later determine to death. A person who raises blood once, will raise blood again, unless a proper curative is immediately employed.

PAIN IN THE SIDE—This distressing symptom of Consumption arises from inflammation of the Lungs or the Membrane called the Pleura, or from Bronchial affection of the air passages. In either case it is a very dangerous indication of disease. It prevents full and free breathing and wears away the natural strength of the system. The cause of this symptom should be removed at once, and nothing can possibly offer this object so speedily and healthfully as the Great English Remedy, discovered by Mr Buchan which is entirely vegetable in its ingredients, and perfectly harmless in all its effects.

LIVER COMPLAINT—In cases of Consumption the Liver is always more or less affected, and also the Spleen Phedra, and some instances, On diseasing Consumptive patients, the circles are often found in all these organs particularly upon the Liver, which also becomes fatty, oily and swelled. The effect of the Hungarian Balsam in diseases of the Liver, especially it is one of its glorious virtues is direct and powerful. *Simple disease of the Liver, unattended by Consumption is speedily cured by its use.*

WINTER COUGH—The harsh dry, hacking winter cough which effects *old people* and invalids in low state of health is happily affected by the *Hungarian Balsam*.

It warms, moistens, and stimulates the whole breathing apparatus, removes all morbid mucus and other impurities, purifies and renovates the blood, improves the active power of the Liver Spleen, and other large glands, and the digestive organs, and imparts new life to the vital and connected system.

BRONCHITIS—Bronchitis, Difficulty of Breathing, Hard Cough, Debility expectoration, with all other symptoms caused by an irritation of the air vessels, from the throat to the lungs, are speedily and effectually cured by the use of this valuable remedy. Prepared only by *Dr Buchan*

This is a very painful, wearing and injurious complaint, and always has a powerful tendency to inflame and soften the Lungs and thereby to induce the worst forms of Pulmonary disease. Be warned in time, yet afflicted and employ the valuable remedy.

TUBERCLES ON THE LUNGS—The Hungarian Balsam is the only popular remedy which has any power to dissolve, remove, and cure Tubercles on the Lungs. Incredible as this is generally esteemed, we have the most abundant and conclusive evidence to sustain the assertion that such is its direct and immediate effect, in all cases where there is no natural organic defect. In fact, so confident is the American Agent in its power to cure the worst form of this disease that he pledges, (as he has frequently stated) that it should be used by invalid who have been *PRONOUNCED INCURABLE* by the most eminent physicians, rather than by persons affected with opthe slighter form of disease—in order that its triumphs might be more apparent. He boldly declares that it will cure Tuberculous disease and confidently solicits a trial in the *worst of cases*.

EXPECTORATION—Free Expectoration is the most important object to be attained in all attempts to cure diseases of the Chest and Lungs. The Cough, which is so distressing is simply the result of a desire to expectorate, and as long as foul matter exists in the air passage it will continue to irritate the membrane and provoke a cough. Coughing is an attempt to throw off the matter, and expectoration gives great relief. Inability to expectorate is the latter stages of Consumption is the cause of death.

The Hungarian Balsam is a *great Expectorant*—It dissolves the morbid and diseased matter in the air passage, changes it from a thick, glutinous substance, to a thin harmless fluid, and throws it off with the greatest possible ease and comfort to the patient. There is no better medicine in the world, if its expectorant quality alone be considered.

SPASMODIC ASTHMA—
